
Taxi and private hire knowledge test

COVID safety measures

Introduction

The taxi and private hire knowledge tests are an important part of the 'fit and proper person' test for obtaining a driver's licence. As such, we need to ensure that we can properly administer and supervise the test safely and under strict examination conditions.

The knowledge tests are conducted with multiple candidates sitting in the room at the same time. For this reason, the following COVID safety measures will be in place for your personal safety and the safety of others in the room with you:

- Unless you have a medical reason not to, please ensure you wear a face covering on entering the Civic Centre and throughout your test.
- We will check your temperature before you enter the test room. If your temperature is 38°C or above, you will not be allowed to enter the test room and take the knowledge test.
- We will ask you to sanitise your hands upon entering the test room and before using any equipment.
- The knowledge test room is subject to enhanced cleaning.
